Starved Rock Yacht Club History

The Starved Rock Yacht Club started in 1934 on a barge at the junction of the Illinois and Fox Rivers. It was formed by a group of local boaters to promote the idea of boating. The Club outgrew its barge location and moved to land east of the Hilliard Bridge. The original land location was a small building built on City owned land. It was expanded over the years by adding on several additional rooms to accommodate a growing membership. The Club maintained docks on the west side of the Fox River and on the north shore of the Illinois River. Later land was leased on the east bank of the Fox River. Dockage was installed on this side to satisfy the members' increasing need for larger docking space. For many years the Club organized an annual Labor Day Party which was a major function hosted for the Lake Michigan Yachting Association. Bull Island Lake was a swimming area leased by the Club for many years and used for a number of social and membership functions until it was sold in the mid 1980's.

The Veterans Memorial Bridge replaced the Hilliard Bridge and the club building was in the path of construction. The clubhouse had to be vacated in 1981. The entire west side dockage area was relocated to the east side of the Fox River. The Odd Fellows Hall on Court and Main Streets was used for meetings and parties. When the Veterans Memorial Bridge was finished, a site underneath the bridge was leased from the City of Ottawa for the construction of a new clubhouse. This building was completed in 1987 and was in operation until October 1988. The City lease was canceled by a court order and the clubhouse was moved to a barge. The dockage area was also lost. The old building foundation is still used by the City as a reviewing stand for river activities.

The Club continued to operate for several years at the former Down & Under Tavern. The owners of the tavern, Mr. Jerry Halterman & Mr. Daniel Reynolds, graciously allowed the membership to use their tavern as a temporary clubhouse while a search for new property began. The present location was found and purchased in November 1991 and cleared in early 1992. The building was then moved from the barge to the current location. The clubhouse opened for operation in October 1992 with the finest view of the Illinois River and our club's namesake, Starved Rock State Park. Much work was still necessary with members developing the site, dredging the harbor, building and installing docks.

The club has gone full circle from the original start on a barge. The club moved to land only to be eventually forced back onto a barge before locating on our current property. There is one big difference. We now own the land and control our destiny!

Improvements continue to occur. A launch ramp with an eighty foot dock was built by members. A ninety foot gas dock with pump out station was constructed by members. In the spring of 2005, seven forty foot slips and a one hundred fifty foot guest dock were built. (D Dock) By 2012 seven new slips were added as well as four transient docks. By June 2005, a second bar opened in the downstairs. The basement was remodeled with a beautiful handcrafted bar. The Board of Directors has an enclosed room for private discussions. All built by the volunteer efforts of our membership. Truly these are examples of the motto, Acta non Verba. (Deeds not Words)

Several other projects have been completed including a berm around the dredge pit, a security gate, deck extension with a walk-in cooler, & playground for children. In 2008, a river wall was installed to protect our harbor and land from erosion. Many improvements occurred in 2009. New windows, sliding door, and siding were added to the clubhouse. In addition, the parking area was paved. Dock improvements have continued, and in 2014, we acquired additional equipment to improve our harbor and ensure dredging is under our control.

A series of record floods created great challenges between 2007 & 2009. Many private marinas and IRBBA clubs suffered severe damage. Favorably, with great diligence by the members, we prevailed with minimal loss. Our club is now better prepared for any future threats.

The Club is proud of the tradition of hosting the Ron Robb Special People Cruise. In February 2010, the membership approved the creation of SRYC Charities. This day of service to the community will now be conducted by SRYC Charities. It remains an endeavor that the majority of club members volunteer to participate in. Hosting a large Labor Day Weekend continues as the signature event at the Club. Participation from area boaters and IRBBA clubs makes this a great event. And, in June 2005, for the first time in history, the Club hosted the IRBBA Miss Riverbottom. Though the days were among the hottest of the entire summer, the competition went well with all having a great time. Our club hosted Miss Riverbottom a second time in 2009 and then again in 2014! Once again the club's reputation was enhanced by hosting a successful event.

The Club is gratified with the accomplishments that have been made. It has taken much hard work and talent, and the work of all members has not and does not go unnoticed. The beauty of our facilities and the success of the club are evidence of the hard work and dedication over many years. We hope that the future continues to bring more potential and prosperity. Of course, we would never be successful at any of these endeavors if it were not for the support, dedication, and talents of our members. We respect the past families that have built the traditions of today, but keep our vision towards the future centennial.

Working as a team, we will lower our debt and remain fiscally responsible. The future continues to bring more challenges as well as accomplishments. In 2034, as the one hundredth anniversary is celebrated, the membership will know our hard work was worth the sacrifices. With great pride, every member boat should fly the Club burgee.

February 17, 2017 is a day that our members will not forget. An EF- 3 tornado started its path of destruction just to the west of our harbor and moved through, causing damage to B, C, & D docks. Thankfully most boats were out of the water, and there was limited damage to the SRYC fleet. The membership once again came together to make needed repairs to the docks for another summer of boating. After further assessing the damage from the tornado, the membership voted to replace B & C Dock with new galvanized steel, and concrete-topped docks to last many years into the future. All hands were on deck to remove the old docks and start assembling the new docks in the fall after boats out. Shortly before haul-in 2018 the docks were completed and ready for the fleet to fill the harbor.

In 2018 & 2019, a few different variations for dredging were tried. We now have a system that is effective at removing the never-ending silt and maintaining clear passage in and out of our harbor. Following unsuccessful pile driving for the new dock spuds, the equipment to drill and anchor our docks was purchased and proved effective at anchoring and securing our docks. The construction of a veranda was completed, and we now have a large, shaded area for club events.

In 2020, we were greeted with the COVID pandemic, which changed the way we conducted business. With membership approval, we started to conduct meetings via Zoom outside under the veranda as weather permitted. As too many vacation destinations became limited and more people learned about our club, camaraderie and culture, SRYC saw a large membership increase, as other harbors were seeing a decrease long into the fall of 2021.

In 2021 we received federal grant assistance to install a new pump-out system and pump-out/fuel dock to replace the original aging system. The grant provided the capability to pump out from the gas dock and from the slips on C & D dock, with A & B docks to be completed in the future. In the summer of 2021, we purchased a Marine Travelift. Once the lift pit is completed, SRYC will no longer have to rely on outside assistance to help us haul boats in and out.

Said Member shall be responsible for the actions and conduct of said member of their family or household. All minor children must be accompanied by an adult.

Section 10. In the event of the death of an Active Member, the member's significant other of household would have first priority over the membership waiting list, of retaining the active membership of the deceased. If the significant other of household is accepted as a Member in accordance with the By-Laws, the significant other of household would retain points of the deceased and the boat slip, if one has been issued. The application would have to be received by the Board of Directors before the next docking year. This pertains to significant other of household's only.
